

# APEIRON'S REVOLUTIONARY 2 STEP GRANITE RESURFACE AND POLISHING PROCEDURES

## Step 1— Scratch Removal Discs (SRD's):

Thoroughly strip the floor to completely remove all surface coatings.

Hone the granite with **Apeiron's Foam Disc Holder & Scratch Removal Discs** and water.

Honing process time on Granite is 1 min. per sq. ft. Keep surface wet.

Vacuum the slurry and rinse with **Apeiron's Stone Wash**.

## Step 2 — Granite Polishing (Maintenance Procedures):

Pour 1 oz. Granite Polishing Powder, and 1 oz. of water directly onto the floor.

Buff 10-12 sq. ft. with a white polishing pad.

Continue to buff until mixture is completely dry and gloss is restored.

Sweep or vacuum to remove the powder residue.

*Repeat application if higher gloss is desired*

- Protect with Apeiron's Impregnator Seal

- Clean daily with Apeiron's Stone Wash

- Maintain gloss with Apeiron's Granite Shake
